Hello,

Please find below, our brochure for our Hot Water Cleaning Trailer. This trailer has been specifically designed for the cleaning of equipment and machines around a Mine Site. This trailer is wholly designed and manufactured in house to suit Mining Environments. The Trailer is designed as Extra Heavy Duty and Hot Dip Galvanised to provide durability & reliability. This will give you reliable, accurate and dependable portable Pressure Clean solutions.

This trailer has been designed with the view of in field repairs to heavy equipment. This gives you access to Hot Water Pressure Cleaning in break down or repair situations. The 1000 ltr tank will give you approximately 60 minutes of cleaning time and the trailer is fitted with LED work lights for night work.

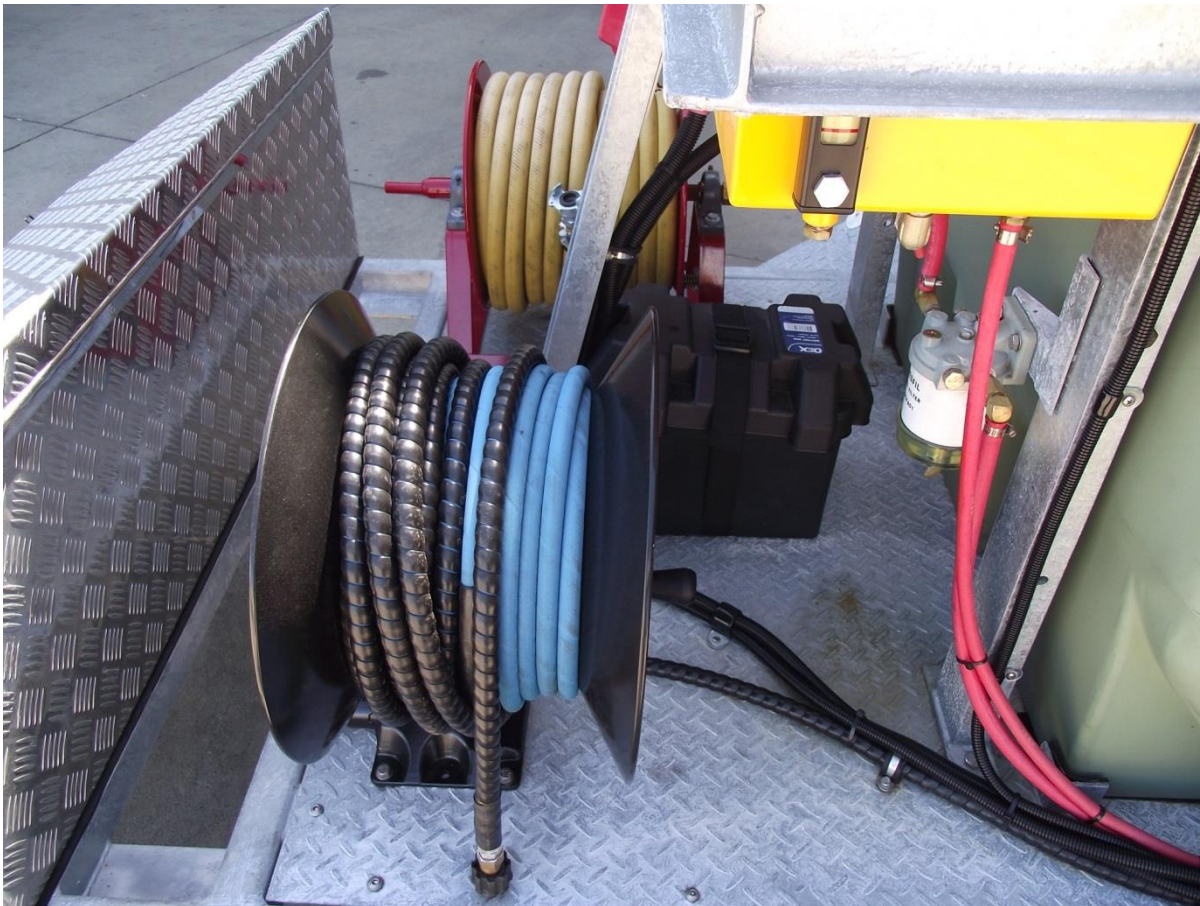

The features built into this trailer are as follows.....

- Extra Heavy Duty Construction
- Fully Hot Dip Galvanised
- Extra H/D, Torsion Bar Single Axle (improved ride & ease of manual manoeuvring)
- Jetwave HW200-15DHY Hot water Pressure Cleaner (Yanmar Powered 3000psi)
- 1000 Litre Poly Water Tank (with Low Water Shutdown)
- Multi Position H/D Hose Reel with up to 50mts of High Pressure Hose
- Multi Position H/D Hose Reel with up to 30mts of Supply water Hose
- Tool Box Custom made 3mm Aluminium
- Spare Wheel
- H/D Jockey Wheel & Wind Down Rear Stand
- Under 2000 kg fully loaded and fitted with Manual Override Brakes (can be towed by any 4WD)
- 45 Litre Diesel fuel tank with gauge
- Fully Mine Compliant (Battery Isolator, Emergency Stop, Jump Start Plug, High Lights, Signage, Fire Extinguishers X 2, Wheel Chocks X 2, Double Safety Chained, Reflective Stripe & Equipment Number) Lights are LED
- 2 – LED Work lights
- Flashing Strobe Light (works when pressure cleaner is running)

Pressure cleaner & Burner caged, E- Stops fitted outside
